Electronic  
Counters***

RTC

TC

**Olden Enterprises RTC (Rate & Total Count) and TC (Total Count) Counters** are fully electronic with no moving parts. Both feature very large and bright LED displays. The display can easily be read from 15 feet away.

- The sensor counts using invisible infrared light. Nothing ever touches the piece being counted, which can be up to 2" away.
- **RTC & TC** counters have an electronic memory that uses advanced electronic circuitry to retain the count. There is no battery that ever needs replacement!
- The **RTC** counter display can be switched to display the count rate in pieces per hour. The rate function is displayed until the next push of the count/rate switch.
- Sensor has a 10' curly cord and mounts with its own magnet. Adapters are provided for non-magnetic surfaces.
- Counters come with a new generation sensor and standard 6" post mount.
- Counter body is compact and easy to install without tools.

The counters are used on folders, stitchers, and other bindery equipment, as well as various inserters, mailing machines, etc. They mount to the machine with one of four available mounts. The half-round at the end of the post slides into a matching hole in the bottom of the counter case. The post mount slides over any vertical edge up to 5/8" thick and is secured by a thumbscrew.

a strong magnet to a horizontal surface and has the short post that can be tilted up/down and locked in place. This allows the display to be aimed at the operator's eyes. The Vertical Magnetic Base Mount (not pictured) has a straight, non-adjustable post and is designed to allow the counter to be mounted on vertical surfaces. The Adjustable Post Mount has a short post that can be tilted up/down and locked in place, aiming the display at the operator's eyes.

**Optional mounts:** The Magnetic Base Mount features an adjustable post, which attaches with

<b>Specifications:</b>	Power requirements:	110 volts, 60 Hz, 5 watts
	Maximum counting speed:	200,000+ per hour
	Maximum count:	999,999
	Counter Size:	5.5"W x 3.5"H x 2.3"D
	Sensor Size:	1.5" x 1" x .6"

Each counter is bench tested for 100 hours, and includes a one-year warranty on parts, materials and workmanship.

The **Olden Enterprises Batch Counter** is a seven digit total counter, two rate meters and job time display in one compact, easy to operate unit. Four digit maximum batch size. Variable delay time controls feeder or conveyor. The counter body can be ordered with different accessory packages for use on folders, stitchers, inserters, etc. Easy to install on most Baum, O&M, MBM, Stahl & MBO folder models. Uses the same mounts shown above. Contact your Olden Enterprises dealer or the factory for details on selecting the accessory package for your application.

<b>Specifications:</b>	Max. Counting Speed:	400,000+ per hour
	Max. Rate Displayed:	90,000 per hour
	Power Required:	110 volts, 60 Hz, 5 watts
	Running Time Displayed:	99.99 hours
	Max. Total Count:	9,999,999
	Preset Batch Delay:	0.1 - 9.9 seconds
	Preset Batch Size:	1 - 9999
	Counter Size:	5.5"W x 3.5"H x 2.3"D
	Sensor Size:	1.5" x 1" x .6"
